Dear Mr. Davies,

I'm just writing to tell you, don't listen to these people who say your books are garbage, because they don't know what they're talking about. I know a bunch of kids (including me) who think your books are great.

As far as the "rude humor" goes, I find that stuff hilarious, so please don't change a thing. In fact, I would encourage you to put MORE bodily functions and things of THAT nature in your books.

Sincerely,

Greg Heffley
